

Time or metered?

Time controlled models regenerate automatically normally every 2 or 3 days.

Meter controlled versions monitor the amount of water used and regenerate when it needs to.

Model	C10	C15	
Width	275mm	275mm	
Height	530mm	665mm	
Depth	460mm	460mm	
Capacity	10 litre	15 litre	
Litres of softened water between regenerations at 300ppm hardness	1667	2500	
Water area type	Moderately hard water	Moderately hard water	Very hard water
No. of people in household	1-3	4+	1-4+

Installation data	
Inlet	¾ inch male
Outlet	¾ inch male
Drain	¾ inch male
Overflow	½ inch hose spigot
Power	12 volt, 50Hz, 3 amp fuse (transformer supplied)
Water pressure	120 psi max, 20 psi min

Coral

water softeners

Rain water passing through the layers of soil and rock absorbs mineral salts. In many cases these mineral salts cause the water to become 'hard', causing scale in hot water systems, scum around baths and sinks, and blocking shower heads. Removing this hardness gives you all the benefits of soft water, wherever you live.

Saving Money

Scale builds up in pipes, boilers, washing machines and dishwashers. Just 1.6mm of scale build up in heating systems causes a 12% loss in heating efficiency adding £100s of pounds to heating bills. Scale also reduces the life of this equipment. Softened water stops scale build up, and can remove existing scale deposits in hot water systems as well as the scale around taps, in shower heads and stains on baths and showers.

Silky feeling skin, Softer laundry

Softened water has a clean silky feeling. Showers feel luxurious, hair is left feeling soft and bath time is full of bubbles.

Softened water makes laundry feel softer, reduces the use of detergent and other chemicals.

Coral water softeners:

- Save money on energy bills
- Eliminate expensive maintenance bills
- Remove traces of scale in the shower, bath or sink
- Give your skin a silky clean feeling
- Make your laundry feel softer and look brighter
- Reduce the high cost of soap and detergents

Coral softeners are:

Compact, fitting under modern sinks, specifically designed to fit in even the smallest gaps, but still have a high capacity

Stylish, fitting equally well into any utility room or kitchen

Advanced, efficient and quiet

Designed to be simple to use

Versatile, 2 models for any size household
